Robert Schwegler is announced as the new Chief Technology Officer of DCS

Berlin, 02. November 2022 – Robert Schwegler is the new Chief Technology Officer of the Digital Charging Solutions GmbH. He has many years of experience in diverse industries and will now be responsible for leading our international technology teams.

With great pleasure we want to announce Robert Schwegler as our new Chief Technology Officer, as of October 1st. Robert took over from Adrian Reichelt, who served in this role for the last four years from the founding state to expansion. We are grateful for all his contributions.

With the expansion of e-mobility to everyday life DCS keeps creating its innovative services. On this journey Robert is responsible for leading our international technology teams and bringing in his extensive expertise and management skills. He has many years of experience in diverse industries like creator economy, FinTech, gaming, retail, telecommunications, travel, and document management solutions. Prior to joining DCS, he worked for elopage, PPRO, Zalando, bwin, Amadeus, DCI, iXOS. He also served as chief architect at Deutsche Telekom, where he was responsible for product and platforms, payment architecture, and the creation of the internal cloud infrastructure based on OpenStack for telephony applications and IPTV.

Robert will be fostering the sustainable movement and is very keen to contribute a small part to the world becoming a cleaner place. Together we are looking forward to facilitating, driving, and supporting the continuous improvement of service delivery.

About Digital Charging Solutions GmbH

Digital Charging Solutions GmbH (DCS) develops charging solutions for automobile manufacturers and fleet operators, making it one of the world's most important drivers of the transition to electromobility. The full-service white label solutions of DCS allow OEMs and fleet operators to realize their electromobility strategies, because with integrated digital solutions, the company makes charging at charging stations easy, safe and comfortable. In the process, with over 400.000 charging points in 31 worldwide markets, as well as transnational charging, Digital Charging Solutions GmbH boasts the fastest-growing charging network in Europe. Since the beginning of 2019, Digital Charging Solutions GmbH has been part of the mobility joint venture between the BMW Group and Daimler AG. In the fall of 2021 bp followed as third shareholder.
